

Project CY 8609

sk

1. Describe the Technical Facility located near:

SG1A

2. Within the following ten year period determine if and when any "special events" occur:

Note: If you do find any "special events" - - - subsequent sessions will be focused on each separate "special event."

 B A2 E1 T I Az Ag

5 1/2 item is "put" into "tradi" - bound into it a
 vichotluter/reflector

finally "Broken off" large mass a quantity, given added
 impetus, & sent on.

mass

heavy
 dense

active

5 1/2 size doesn't matter - can be b.g or lit. is ideal for
 purpose. Refined. Stabilized. Shaped. Affixed. After upon.
 It's like this whole chunk might expand
 worked with just to "probe" a few pieces off. may not
 even be further used up after that.

forced/
 excited

smooth
 v. fine
 grains

5 1/2 surface texture reminds me of a very fine-grained
 grind stone. Chamber broken off proportionates

extremely small
 They can go faster.

for 74

3 1/2 "chunks" "knocked off" by evenly distributed, ~~finely~~
finely directed, suddenly actuated, uniform force. Not
sense of mechanical force. Force causes heat, involves
parallel lines. Only momentary in duration. Sounds
like buzz-pop. Mass is grayish color. Temperature ->
room temperature normally.
